## TCD 9210

Teller cash dispenser

Fast, automated withdrawal of banknotes at the teller position

**IGEX**  
COUNT ON OUR VALUE

## Fast, efficient and convenient

The De La Rue TCD 9210 teller cash dispenser provides fast, system-controlled withdrawal of banknotes, automatically and securely. With the additional option of combining a convenient manual drop deposit facility, the TCD 9210 delivers faster customer service and greater teller productivity.

### Flexible

The dispensing section of the machine can accommodate 4, 5 or 6 banknote cassettes, depending on the number of denominations required. Easily integrated into branch banking computer systems, the TCD 9210 can provide real-time balance updates by denomination, customer and teller, enabling optimal handling and processing of cash. The optional manual drop deposit section contains secure containers, with a hinged lid, allowing simple, secure storage and removal of banknotes when required.

### Improved productivity

The TCD 9210 can help speed and simplify cash handling routines at the start and end-of-day and therefore these processes become less time-consuming. In addition, the elimination of manual banknote dispensing allows staff to concentrate on more productive tasks within the branch.

### Fast, efficient processing

The TCD 9210 dispenses up to 15 banknotes per second and can be shared by two or more tellers for maximum flexibility of operations. With the option of a manual drop deposit unit to store up to four denominations/categories of banknotes (available with either 2 or 4 slots), deposits received at the teller position can also be stored securely.

### Secure

Use of the TCD 9210 allows secure cash-handling in open-plan layouts. Banknotes are stored in the machine's steel cabinet, which is protected by two key locks. Time and combination locks are available as options, and the TCD 9210 can also be connected to alarm systems for complete security.

- 4 Fast, efficient processing
- 4 Ensures faster customer service
- 4 Greater teller productivity
- 4 Secure cash handling in an open-plan environment
- 4 Flexible design
- 4 Eliminates manual handling of banknotes
- 4 Allows staff concentrate on more value-added tasks
